3. HAZARDS IDENTIFICATION*****EMERGENCY OVERVIEW*****

Extremely Flammable. Contents under pressure. Do not puncture, incinerate or expose to temperature above 120°F(49°C). Eye, skin and respiratory irritant. Vapor harmful.

POTENTIAL HEALTH EFFECTS. Routes of Exposure: Exposure may be by inhalation and/or skin or eye contact, depending on conditions of use. To minimize exposure, follow recommendations for proper use, ventilation and personal protective equipment. Eye Contact: Causes eye irritation. Liquid, aerosols, and vapors of this product are irritating and may cause pain, tearing, reddening, and swelling accompanied by a stinging sensation and/or a feeling like that of fine dust in the eyes. Skin Contact: May cause skin irritation. Allergic reactions are possible. Prolonged and repeated contact may result in defatting and drying of the skin, which may result in irritation and dermatitis (rash). Ingestion: May be harmful if swallowed. Irritating to mouth, throat, and stomach. Inhalation: Prolonged inhalation may be harmful. May cause irritation of the respiratory system. May cause nervous system depression. Headache, nausea, dizziness and loss of coordination are indications of excessive exposure to vapors or spray mists. General: May aggravate existing respiratory, eye and skin disorders. Reports have associated repeated and prolonged overexposure to solvents with permanent brain and nervous system damage. Deliberately concentrating and inhaling the vapor of the contents may be harmful or fatal.

4. FIRST AID MEASURES

Eye Contact: Promptly flush with a large amount of water for at least 15 minutes. If irritation persists, consult a physician. **Skin Contact:** Promptly wash affected area thoroughly with soap and water. Remove contaminated clothing and launder before reuse. If irritation persists, consult a physician. **Inhalation:** Remove to fresh air. Restore breathing if necessary. If irritation persists, consult a physician. **Ingestion:** Do not induce vomiting. Never give anything by mouth to an unconscious person. Seek immediate medical attention.

5. FIRE FIGHTING MEASURES

Flashpoint(Method): Positive Flame Extension. Lower Explosive Limit(LEL): 1.0%. Upper Explosive Limit(UEL): 13.1%
Autoignition Temperature: Product is not self-igniting. **Ignition Temperature:** 446°F; 230°C **Fire and Explosion Hazards:** Vapors will accumulate readily and may ignite explosively. Isolate from heat, electrical equipment, sparks and open flame. Closed containers may explode (due to build-up of pressure) when exposed to extreme heat.

6. ACCIDENTAL RELEASE MEASURES

Extinguishing Media: Carbon Dioxide, dry chemical, foam. **Fire Fighting Instructions:** Full protective equipment including self-contained breathing apparatus should be used. Containers can build up pressure if exposed to heat (fire). Use equipment or shielding required to protect against bursting or venting containers.

7. HANDLING AND STORAGE

Keep away from heat, flames, sparks or other sources of ignition. Keep area ventilated. Do not smoke. Contents under pressure. Do not puncture, incinerate or expose to temperatures above 120°F (49°C). Extinguish all flames, pilot lights and heaters. Turn off stoves, heaters, electric motors and other sources of ignition during use and until all vapors are gone. Store in a cool, dry location. Do not take internally. Intentional misuse by deliberately concentrating and inhaling the contents can be harmful or fatal. Keep out of reach of children. Avoid breathing vapor and spray mist. Avoid contact with eyes, skin and clothing. Wash hands after using. When spraying more than one half can continuously or more than one can consecutively, use NIOSH-approved respirator.

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Engineering Controls: Local exhaust preferable. General exhaust acceptable if the exposure to materials is maintained below applicable exposure limits. Personal Protective Equipment: Respiratory: If personal exposure cannot be controlled below applicable limits by ventilation, wear a properly fitted NIOSH-approved respirator. Eye: Wear approved safety glasses or goggles with unperforated side shields. Skin: Wear chemically impervious gloves. Other: An emergency eyewash station or source of clean potable water should be available in case of accidental eye contact.
